

## **The Exact Steps I Took to Achieve Financial Independence**

### **Keynote Speaker: Lucas Thomas**

Properly managing your money or investments and making the right financial decisions takes time, skill, and effort. It's not a one-time thing, either. The most important principle you need to take to heart when you want to gain financial stability and create wealth is to understand that you can't do everything yourself.

Join me as I discuss what you're currently doing wrong in your finances and the steps you can take to optimize your spending towards financial security. You'll learn proven tips and effective approaches to achieve your short, mid, and long-term financial goals.

I will share the powerful truth about money that I have learned for over a decade of working in the industry and how to make your money work for you in your everyday spending, investment strategies, and long-term planning.

### **Speaking Topics**

#### **3 Pillars of Wealth: The Tale of 3 Brothers**

I have three friends who are brothers. They were all completely different from each other and as they grew old and I got to know them, they all continued to develop down different paths: The Software Engineer (The Wealthy,) The Accounting (The Well-Off) and the Advertiser (The Perpetually Broke) All three were very successful in their careers, but they each of them did things differently to end up where they did.

#### **The Money Dojo: How to Harness the POWER of your Money**

Why does mindset matter? The power of money brings out the best and worst in people, understanding our internal beliefs helps us make smarter financial decisions and avoid behaviors that could damage our financial situation. Instead of working for money, make money work for you!

#### **Legacy: How Will People Remember you?**

Will your kids inherit your wealth or just your money? Build a Legacy to leave your family so they can prosper for generations. Learn how to successfully manage, maintain, and increase wealth so, your legacy lives on.

## **Master of the Yield: How to Achieve F.I.R.E.**

Could you retire in your early thirties with F.I.R.E (Financial Independence, Retire Early) Yes, you can! I know this works because it works for me too Before I became Financial Independent, I was also stuck in the 9-5 grind, I was vulnerable to poor spending decisions, and had a lack of long-term preparation. But I did something different that completely changed my life...
